Clients

Over 95% of the attendees are 'end users' of industrial lasers. Of this group, over 80% are 'repeat business' - come from the same companies that keep sending their employees to the HDE Laser Welding Technology classes.

Over the 40+ years more than 5,000 people attended.

Attendees are engineers, operators, scientists, team leaders and project managers.

Industries represented are aerospace, aircraft, automotive, automotive components, educational institutions, electronics, jet engine, medical device manufacturing, microwave, national research labs, pharmaceutical, etc.
